SUPER HOLDERS

NUPLA Superholder

ALL THAT THE NAME IMPLIES — IN DESIGN AND DEPENDABILITY

12 SUPER FEATURES

1. **NON-STRIP THREADS CUSH-N-LOK ®**
   Steel floating nut eliminates stripped threads. (Pat. Pend.)
2. **FIBREGLASS SHAFT NUPLAGLAS ®**
   Parallel glass fibres reinforced with Polyester resin eliminates broken handles.
3. **CUSHION GRIP NUPLAGRIP ®**
   Permanent grip that will not slip — stops hammer sting.
4. **PERMANENT BOND NUPLABOND ®**
   Guarantees handle and head will never come loose for the life of the tool.
5. **INSULATED HANDLE**
   Shaft and grip are non-conductors of electricity.
6. **PERFECTLY BALANCED**
   Assures maximum control.
7. **SHOCK ABSORBING**
   Eliminates transfer of shock to hand.
8. **NUPLOK** (Pat. Pend.)
   Locking device prevents tip from working loose.
9. **SAFETY TOOL**
   Designed with safety foremost in mind.
10. **SUPER IMPAX**
    (Shot Loaded)
    Available in 7 popular sizes
11. **24 SELECTIONS**
    Any size — any weight
    From 5 oz. to 20 lbs.
12. **LIFETIME GUARANTEE**
    Superholders are unconditionally guaranteed against handle breakage and stripped threads.

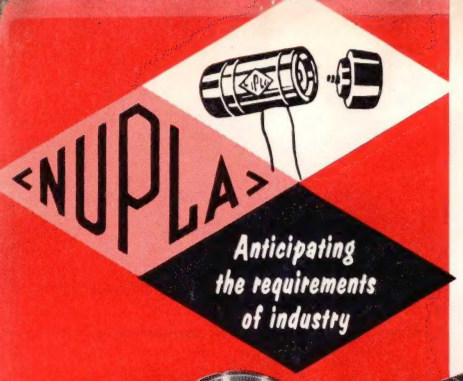
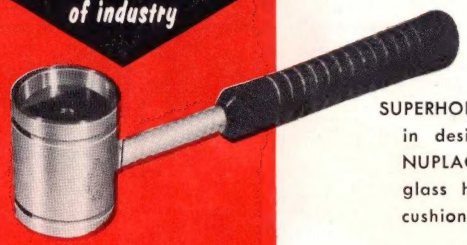
NUPLA HAMMERS

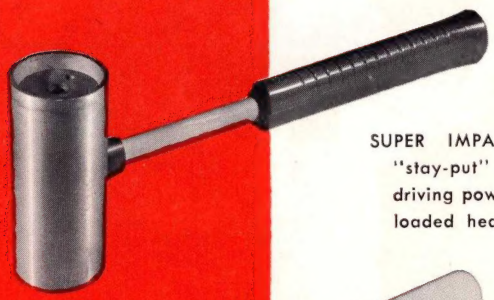
ORDERING INFORMATION



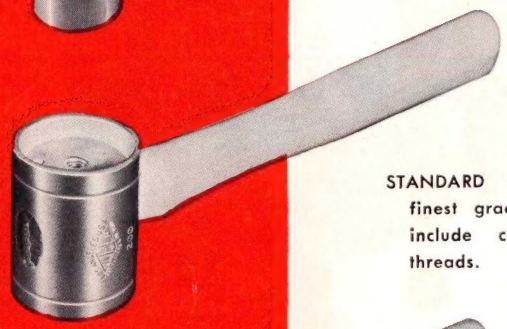
NUPLA HOLDERS Replaceable and interchangeable screw-in type tips. Available in two styles, Regular and Superholder, in every size and weight from a 5 oz. hammer to a 20 lb. sledge. Uses tips having same face diam.



SUPERHOLDERS All that the name implies in design and dependability . . . with NUPLAGLAS handles (indestructible fiber glass handles with slip-proof sting-proof cushion grips), and non-strip threads.



SUPER IMPAX HOLDERS with controlled "stay-put" dead-blow, produce 30% more driving power with specially designed shot-loaded head.



STANDARD HOLDERS equipped with the finest grade hickory handles. Does not include cushion grips and non-strip threads.

IMPAX HOLDERS with controlled "stay-put" dead-blow, produce 30% more driving power with specially designed shot-loaded head.

TO ORDER: A NUPLA hammer or sledge consists of three separate units . . . the holder and two tips. Order holder and tips separately. Specify holder desired by "Holder Part Number." (See tip section for tip selection).

NUPLAFLEX (SCREW-IN TYPE) TIPS

Long lasting NUPLAFLEX replaceable and interchangeable by hand, available in eight color-coded hardnesses and five shapes. Hardnesses range from the softness of sponge rubber to the hardness of copper. Will not gash, mushroom, or lose shape, will not mark or mar polished or painted surfaces.

TO ORDER: Specify part number of tip having same face diameter as holder, adding to tip part number the letter indicating hardness desired (i.e., Hard Tip for #152 Holder 15H). If shaped tips are desired, add letter indicating tip shape (i.e., Dome 15 HD).

RESPECTIVE HARDNESSES by hardness, ordering letter, and color.

SS—Super Soft, Gray	N—Medium Hard (Nylon) Cream
S—Soft, Brown	BH—Near Hard, Orange
M—Medium, Red	H—Hard, Black
T—Tough, Green	XH—Extra Hard, Yellow
